

# PTA The Torrance Council Way

Mrs. Stephen Sampson

**COUNCIL**  
Dental Health Chairmen in each PTA Unit in Torrance Council will instill and continue dental health education to all students attending the Torrance public schools. This will be done by encouraging the child and the parent to observe good dental health practices, including good oral habits, professional care, and proper diet. Also, PTA Dental Health Chairmen on the elementary level will assist school nurses and volunteer dentists in conducting dental surveys of children of the first and sixth grades, approximately 5300 students.

In conjunction with these surveys, dental health education will be fostered in all classrooms with talks by school nurses, dentists, or dental hygienists; by films, skits, or student posters; and by pertinent articles in the PTA Newsletters.

In addition, Torrance Council PTA and its forty units will support the Torrance Dental Health Association, a community program dedicated to philanthropic and educational work in the field of dental health. This Association is composed of representatives of the thirty-eight participating volunteer dentists, the Torrance Unified School District, and organizations participating financially.

According to Mrs. W. Y. Wells, dental chairman of Torrance Council PTA, local studies indicate that through the concerted and continued efforts of dentists, school nurses, parents, and dedicated PTA Dental Health Chairmen a goal of proper dental health education and care can be realized.
